

LCM Complete Enrobing Line

LCM Machines can be individually assembled.

We would be pleased to help you find the ideal combination of machine types from the wide range at LCM Schokoladenmaschinen GmbH for your individual needs.

Here is an example with:

- Melting Container
- Coating Machine
- Cooling tunnel

Coating machine LCM 420 ATC
with cooling tunnel LCM 420 CTB and
melting container with pump LCM 400 M

LCM Complete Enrobing Line

Technical Data

LCM
Schokoladenmaschinen

With LCM Machines, operational processes can be optimized. LCM Machines can be combined in numerous ways.

With the portable coating machine and the melting container, numerous coating machines can be combined with only a cooling tunnel or numerous chocolate melting containers for various chocolate types with a coating machine.
